## Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

## Listing of Claims:

1-5. (Canceled)

6. (Previously Presented) A method of manufacturing a light emitting device, said method comprising:

forming at least a transparent protrusion; forming a pixel electrode to overlap the transparent protrusion; forming an organic layer to overlap the pixel electrode; and forming a cathode over the organic layer.

7. (New) A personal computer comprising a main body, a casing, a display portion, a keyboard, said personal computer including a light emitting device:

wherein said light emitting device comprises:

a transparent protrusion;

a pixel electrode over the transparent protrusion;

an organic layer over the pixel electrode; and

a cathode over the organic layer,

wherein a surface of the cathode in contact with the organic layer is uneven.

8. (New) A personal computer according to claim 7, further comprising: an insulating film in a transverse direction of the transparent protrusion, wherein the insulating film has a high light absorption property.

ريه

9. (New) A personal computer according to claim 7, wherein the transparent protrusion is a microlens.

10. (New) A portable telephone comprising a main body, a sound output portion, a sound input portion, a display portion, operation switches, and an antenna, said portable telephone including a light emitting device:

wherein said light emitting device comprises:

at least a transparent protrusion;
a pixel electrode over the transparent protrusion;
an organic layer over the pixel electrode; and
a cathode over the organic layer,

wherein a surface of the cathode in contact with the organic layer is uneven.

- 11. (New) A portable telephone according to claim 10, further comprising: an insulating film in a transverse direction of the transparent protrusion, wherein the insulating film has a high light absorption property.
- 12. (New) A portable telephone according to claim 10, wherein the transparent protrusion is a microlens.
- 13. (New) A portable telephone according to claim 10, further comprising an operation panel, a connecting portion, and a power source switch.
